

Lexology Legal Influencers

Lexology Legal Influencers recognises legal industry leaders who have consistently provided users with valuable insights within a specific practice area and a region or country over the past quarter.

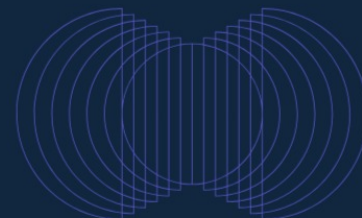

Individuals and firms are selected through our proprietary scoring system, which considers article reads, frequency of posting and LexScore, our engagement metric based on how users interact with each article.

Filter the Influencers by region or work area and find leaders in each field.

To find out what makes a Lexology Legal Influencer, contact your account manager.
